ProneView®
Protective Helmet System

Patient Positioning Made Easier
Quick and Easy Adjustments

Adjustable Protective Helmet – Makes Positioning Your Patients Easier

- Four large knobs are attached to the helmet that are easier to adjust once the patient has been rotated onto the surgical table
- Easier alignment on to the mirror platform
- Larger range of height adjustment for better neutrality of the neck
- Compatible with current disposable face cushions

The Mirror – Simple Yet Effective

- Easily aligns with the pegs located on the base of the Adjustable Protective Helmet
- Allows for continuous eye monitoring during procedure
- Fast and easy clean up, with nothing attached to the surface
