

Patient Care Kits

Surgical patient positioning and support

Comprehensive Solutions For Pressure Injury Abatement and Optimal Patient Care

Only Mizuho OSI® can deliver a comprehensive system of care to simplify your pressure injury abatement initiatives. From the surgical table to pressure redistributing surfaces and soft patient care kits, we deliver seamless solutions for optimal surgical positioning and patient support.

Mizuho OSI® **Patient Care Kits** provide support, positioning and isolation during a surgical procedure. They provide an unsurpassed system of care and design for practical application. We understand that quality materials, superior design and intimate knowledge of the surgical table translate into better patient outcomes.

Levó® Sterile Drape

- Surgeon controls all adjustments without breaking the sterile field
- Time savings in draping and interoperative adjustments
- Quick and precise articulation without going under the drape
- No need for the surgeon to hold the skull clamp while waiting for critical adjustments
- Full visualization of Levó® with clear window

Levó® Protective Arm Sleeve

- Protects the Levó® Arm from fluids during surgical procedures
- Allows full range of motion of Levó®
- Contoured design allows full access to component connection points
- Quick and simple application to Levó®
